	4	Instructions of the higher authorities on 18.05.2026 and 19-5-2026.

The Foundational Literacy and Numeracy (FLN) is the most critical and essential stage in a child's learning journey, as it forms the basis for all future learning outcomes. The National Education Policy (NEP) 2020 and NIPUN Bharat Mission emphasize that every child should attain foundational literacy and numeracy skills by the end of Grade 3. In this regard, strengthening classroom transaction, activity-based pedagogy, child-centered learning practices, competency-based assessments, and effective remedial support at the primary level has become a priority of the School Education Department.

The primary school teacher plays a pivotal role in ensuring that children develop reading comprehension, writing abilities, basic mathematical understanding, and conceptual clarity during the foundational years. Therefore, it is essential to continuously build the capacities of teachers through structured academic support and intensive training programmes so

that they are equipped with appropriate pedagogical strategies, classroom practices, learning assessment techniques, and innovative teaching methodologies aligned with FLN goals.

In order to ensure effective implementation of FLN interventions across the State and to strengthen the academic support system at all levels, the Department has decided to conduct intensive residential training programmes for identified Key Resource Persons (KRPs), who will further support and mentor teachers during the cascade mode trainings to be conducted subsequently across the State.

Accordingly, the following residential training programmes for KRPs are scheduled to be conducted at YES-J Center, Loyola College, Ramesh Hospital Road, Vijayawada.
